

NEW HEAP PROCESS & PROCEDURE 2016-2017

The Sullivan County HEAP process will feature expanded community participation.

All applicants are encouraged to visit either the community certifier of their choice or to the certifier closest to their home.

Our community partners, as a combined group, anticipate being able to process thousands of applications from county residents seeking HEAP support for this year's winter season and its usual energy challenges.

The Following Community Partners

Will Be Working With Our Clients To Process Applications And To Communicate With Vendors
